COU No. 870

This report presents summary statistics on application and registration patterns of applicants (who were processed by the Application Centre), applying for fall entry into full-time study in their first year at an Ontario university.

This series of annual reports began with admissions in fall 1973.

It is possible that some first-year students may apply directly to institutions and hence may not be included in these statistics.

Users of this report should carefully review the "Definitions" (page 1) and "General Limitations" (page 2) sections.

This report was prepared by the Policy and Analysis Division of the Council of Ontario Universities and by the Ontario Universities' Application Centre.

INTRODUCTION

This report presents application and registration data for the fall of 2011. The presentation of the data is identical to that used in last year's report. Users are advised to read the *General Limitations* section (on the next page) to be aware of any factors that might affect the comparability of data in this report to earlier reports in this series, as well as to reports that present registration statistics.

Definitions

For the purpose of this report, the definitions used by the Ontario Universities' Application Centre (OUAC) have been employed.

Secondary school applicants refer to those applicants who were registered during the 2009-10 academic year as full-time day students at an Ontario secondary school and received their Ontario Secondary School Diploma with either six Grade 12 U (university bound) or M (university or college bound) or Ontario Academic Credit (OAC) courses at the end of the current school year. All other applicants were defined to be *other applicants*.

Each applicant was allowed to indicate an unlimited number of choices of universities and programs. Each choice was considered to be a distinct *application*, even though the applicant submitted only one application form. Applicants also indicated their order of preference for their choices.

Throughout the admission cycle, applicants were permitted to amend their choices by dropping a choice and adding a different choice. Deleted choices are referred to as inactive choices or applications while current choices are called active choices. ***All of the tables in this report exclude inactive choices.***

The OUAC is responsible for processing all applications for first-year full-time applicants who were not previously registered at an Ontario university. When these applicants subsequently registered at a university, they were designated as *registered applicants*. If a student had been previously registered (for example, repeater or internal transfer between programs) at that institution, his/her application was not processed by OUAC. OUAC received data on all students registered in first-year programs on a full-time basis from the universities via the Statistics Canada/Ministry of Training, Colleges and Universities (MTCU) student information system. Included in these figures were those students who had applied for advanced standing above first year but had subsequently registered in first year. Where universities did not identify the classification of some of their registrants, these registrants were recorded as unidentified registrants.

Statistics presented in this report deal only with applicants processed by the OUAC who are applying for fall entry into full-time study in their first year of post-OAC programs. In addition to the exclusions listed in the previous paragraph, applicants seeking admission to preliminary year programs or diploma programs that do not require OACs for entry have been excluded. Table 15 presents a reconciliation of the various categories of registrants in first year.

General Limitations

As previously stated, the OUAC received data on registrations indirectly from the universities as part of their annual submission of University Statistical Enrolment Report (USER) enrolment data to Statistics Canada and MTCU. In its operations, the OUAC employs a unique set of program categories; there may not be a direct correspondence between these categories and the program categories used by MTCU and Statistics Canada. Furthermore, there may be instances where a student is reported in one program to the OUAC and reported in a different program to either MTCU or Statistics Canada. In addition, statistics showing enrolment in *First Year* from MTCU and Statistics Canada may include programs (for example, law and medicine) that are not included in first year as defined by the OUAC.

TABLE 1

Applications and Registrations Summary, 2002 - 2011

APPENDIX C

Explanation of Table 15 Column Headings

Table 15 reconciles the data in Application Statistics with the *Admission Data System Report* published by the OUAC.

Registered Applicants in First Year
Registered applicants who applied for fall entry into full-time study in their first year of post-OAC programs. The figures exclude those seeking admission to preliminary year programs or diploma programs that do not require OACs for entry. This column, therefore, reconciles with Table 3 in this report.

The following five categories show registered applicants who registered in university, but are excluded from this report:

1. Applied: Pre-U, Dip ***Registered: First Year***
Students who applied for preliminary year programs or diploma programs and registered in first year.

2. Applied: Advanced Standing ***Registered: First Year***
Students who applied for advanced standing and registered in first year.

3. Applied: First Year ***Registered: Pre-U, Dip***
Students who applied for first year and registered in preliminary year programs or diploma programs.

4. Didn't Apply: First Year ***Registered: Pre-U, Dip***
Students who didn't apply to first year and registered in preliminary year programs or diploma programs.

5. Other
Application unknown, and registered in first year.

Previous Registrations
Includes registrants who had initially registered in the preceding January or in the spring semester.

Unidentified
The classification of registrants were not identified by the university.

Grand Total: Registrants in First Year
This column reconciles with Table 2.0 in the *Admission Data System Report* and includes all first-year, full-time applicants who applied through OUAC and were registered at a university in the current year.
